

PROJECT INFORMATION SHEET

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

CAP-111- McLain State Park, MI

Description

In 1997, the Michigan Department of Natural Resources (DNR) partnered with the United States Army Corps of Engineers (USACE) under Section 22 of the Water Resources Act of 1974 to study the cause of erosion at McLain State Park located in Hancock Township, Houghton County, Michigan. The study determined that the best course of action to mitigate damage is to relocate threatened park infrastructure. In July of 2016 the DNR requested a new start Section 111 study be conducted. After completion of the positive Federal Interest Determination, the DNR advised the Corps that the State did not have adequate resources to continue the study.

Congressional Interest

Bergman (MI-1); Senator Peters (MI), Senator Stabenow (MI)

Location Map & Picture

Non-Federal Project Sponsor

Michigan Department of Natural Resources

Project Authority

Section 111, River and Harbor Act of 1968, as amended - Shore damage prevention or mitigation caused by Federal navigation projects.

Funding	Total	Federal	Non-Federal
